Professinal Objective:

As an experienced Laravel developer with 1+ years of experience. My goal is to gain hands-on experience in Laravel development and contribute to a dynamic team of developers. I am eager to apply my knowledge of Laravel, PHP, and MySQL to build high-quality web applications and enhance my skills in web development and software engineering. I am a quick learner, a team player, and willing to take on new challenges to further my career in web development.

Work Experience:

- **Desktop IT** - Junior Backend Developer (25-08-2022 - 30-04-2023)
  Assisted in developing and maintaining backend features for web applications. Worked closely with senior developers to implement new functionalities. Participated in code reviews and collaborated on improving code quality.

- **Topfnf Identity Inc.** - Backend Developer (25-03-2023 -)
  Developed and implemented robust APIs for web applications to enable seamless data communication between front-end and back-end. Implemented new features and functionality in existing codebase while adhering to coding best practices and standards.

Projects:

- **Payvill** - https://resume.payvill.com
  Payvill is a Toronto-based company focused on making a direct impact on the e-commerce and online marketplace. Working in conjunction with local businesses, Payvill aims to facilitate the connection between customers and the most reliable businesses in their local area

- **Dishnet** - https://desktopit.org/dishnet
  Dishnet is a versatile app serving as a bill collection platform and an employee/customer management application. It simplifies the payment process by automating bill collection and invoicing while providing real-time updates and notifications to both customers and administrators.

- **Shikkhasoft** - http://shikkhasoft.com
  Shikkhasoft is a comprehensive school management system designed to streamline and enhance various aspects of educational institutions. It offers a wide range of modules and features, including academic, student, attendance, exam, result, account, inventory, library, teacher, and student admin panels

Fields of Specialization	Description
- Vue.js - PHP - Website Development Using Laravel - Rest API Creation - Back-End Development - SQL Query - Database MySQL	- Modular Architecture and module-based large SPA. - Solid knowledge of PHP OOP & MVC. - Website development using Laravel (Create new website, Update Old Website, Restful API for Mobile applications, Back-End for Ecommerce store) - Ensure the databases are simple and easy to read. - Strong knowledge about Back-End (Laravel Framework) Front-End (HTML, CSS, JavaScript, jQuery, Bootstrap)
