PROFESSIONAL SUMMARY

PHP and Laravel developer with more than three years of relevant experience delivering and maintaining production applications across ERP, CRM, healthcare, civic services, billing, and logistics. Experienced with MySQL and SQL database workflows, RESTful API development and integration, object-oriented programming, and maintainable backend systems. Supports production issue diagnosis, debugging, releases, and deployment across Linux, VPS, and Nginx environments.

SKILLS & EXPERTISE

- PHP
- Laravel
- MySQL
- REST APIs & API Integration
- Object-oriented programming
- SQL & Redis
- ZKTeco Integration
- Dynamic Report Generation
- Troubleshooting & Debugging
- Linux
- HTML5 & CSS3
- Python
- FastAPI
- JavaScript
- Vue.js & React
- Bootstrap & Tailwind CSS
- Git & GitHub
- Docker & DevOps
- Accounting Workflows
- Project Deployment
- Nginx & VPS deployment
- Web Applications

WORK EXPERIENCE

Full-Stack Developer

Jan 2024 - Present

Riyadh Online | Full-time

- Develop and maintain Laravel modules across CRM, ERP, union-service, healthcare, accounting, and courier-management platforms.
- Successfully integrated ZKTeco hardware with application workflows and implemented supporting data-processing functionality.
- Build reusable services, RESTful APIs, role-based workflows, MySQL processes, dynamic reporting, and print-ready document modules.
- Troubleshoot production issues, protect data integrity, integrate third-party services, and support releases and project deployment.

Full-Stack Developer

Jan 2023 - Dec 2023

TDevs | Full-time | Tungi, Gazipur

- Delivered client-specific HRM and CodeCanyon features after reviewing application architecture, dependencies, and customization constraints.
- Designed and implemented payment gateway integrations covering callbacks, webhooks, transaction states, validation, and error handling.
- Refactored Laravel modules and MySQL database logic to resolve functional and data defects and improve maintainability.

Junior Developer

Jan 2022 - Dec 2022

Desktop IT | Full-time

- Collaborated with senior developers to implement and integrate application modules using established architecture and coding standards.
- Investigated application and database defects and supported debugging, testing, regression validation, and release preparation.
- Applied code-review feedback and participated in daily technical coordination to support consistent team delivery.

SELECTED PROJECTS

Aiyat Clinic Management Software

Project Link: aiyat.com

Developed dynamic medical-test report management and print-ready reporting workflows alongside IPD, OPD, billing, invoicing, sample collection, payroll, and accounting functionality.

Amlaek Real Estate Platform and Noorixa ERP

Project Link: amlaek.com

Developed workflows for projects, tasks, teams, time tracking, CRM, accounting, reporting, and analytics within a commercial real-estate platform and ERP.

UnionDesk and Khadim Nagar Union Parishad Portal

Project Link: khadimnagarup.com

Built dynamic management for multiple certificate types, including application processing, configurable certificate generation, verification, printing, holding tax, and service records.

Union Desk

Jun 2025 - Jun 2026

Completed | Professional

Project Link: uniondesk.xyz

Delivered a digital local-government platform with dynamic certificate services, household assessment, holding-tax accounting, digital payments, smart citizen cards, verification, and service tracking.

EDUCATION

Diploma in Computer Engineering

2021

Thakurgaon Polytechnic Institute

CGPA: 3.61 / 4.00

Secondary School Certificate

2017

Nouton Bandar Bangheri High School

GPA: 4.23 / 5.00

TRAINING

Web Design and Development

LEDP | Offline

Professional Web Development

Creative IT | Offline

LANGUAGES

Bangla: Native

English: Professional working proficiency

VOLUNTEER EXPERIENCE

SEQAEP

Volunteer | Social Work
