Mid-Level PHP Developer | Laravel | MySQL | REST APIs

PROFESSIONAL SUMMARY

PHP and Laravel developer with more than three years of relevant experience delivering and maintaining production applications across ERP, CRM, healthcare, civic services, billing, and logistics. Experienced with MySQL and SQL database workflows, RESTful API development and integration, object-oriented programming, and maintainable backend systems. Supports production issue diagnosis, debugging, releases, and deployment across Linux, VPS, and Nginx environments.

TECHNICAL SKILLS

Backend: PHP, Laravel, object-oriented programming (OOP), authentication, role-based access control, queues, background jobs

Database: MySQL, SQL, Redis, caching, database workflows

APIs and Integrations: RESTful APIs, third-party API integration, payment gateways, callbacks, webhooks

Frontend: HTML5, CSS3, JavaScript, Vue.js, React, Bootstrap, Tailwind CSS, responsive UI design

Development Tools: Git, GitHub, testing, debugging, regression validation, logging, monitoring

Infrastructure: Linux, VPS deployment, Nginx, SSL, performance optimization

Business Systems: ERP, CRM, HRM, healthcare, billing, invoicing, reporting, civic services, courier management

PROFESSIONAL EXPERIENCE

Full-Stack Developer

Jan 2024 - Present

Riyadh Online

- Develop and maintain Laravel modules across CRM, ERP, union-service, courier-management, and template-based platforms.
- Translate operational requirements into reusable services, RESTful APIs, role-based workflows, MySQL database processes, and reporting components.
- Diagnose production issues, trace root causes, and implement controlled fixes that protect data integrity and existing business workflows.
- Integrate third-party services and support technical changes, releases, and production deployment with product and operations stakeholders.

Full-Stack Developer

Jan 2023 - Oct 2023

TDevs

- Delivered client-specific HRM and CodeCanyon features after reviewing application architecture, dependencies, and customization constraints.
- Designed and implemented payment gateway integrations covering callbacks, webhooks, transaction states, validation, and error handling.
- Refactored Laravel modules and MySQL database logic to resolve functional and data defects and improve maintainability.

Junior Developer

Jun 2022 - Dec 2022

Desktop IT

- Collaborated with senior developers to implement and integrate application modules using established architecture and coding standards.
- Investigated application and database defects and supported debugging, testing, regression validation, and release preparation.
- Applied code-review feedback and participated in daily technical coordination to support consistent team delivery.

SELECTED PROJECTS

Aiyat Clinic Management Software

Project URL: <https://aiyat.com/>

Description: Clinic platform covering IPD, OPD, HR, payroll, billing, invoicing, sample collection, testing, and medical reports.

Contribution: Developed modular Laravel services, connected patient, billing, and laboratory workflows, and implemented permissions and configurable reports.

Technology: Laravel, PHP, MySQL, JavaScript, REST APIs, PDF and report generation

Amlaek Real Estate Platform and Noorixa ERP

Project URLs: <https://amlaek.com/> | <https://erp.amlaek.com/>

Description: Commercial real estate platform and ERP for projects, tasks, teams, time tracking, CRM, reports, and analytics.

Contribution: Built role-based listing and service workflows and connected projects, tasks, time entries, customer records, and management reporting.

Technology: Laravel, PHP, MySQL, JavaScript, REST APIs, RBAC, analytics, reporting

UnionDesk and Khadim Nagar Union Parishad Portal

Project URLs: <https://khadimnagarup.com/> | <https://uniondesk.xyz/>

Description: Civic-service platform for certificates, application tracking, verification, holding tax, public information, and service records.

Contribution: Built submission, review, approval, status tracking, verification, searchable-record, and report-generation workflows.

Technology: Laravel, PHP, MySQL, JavaScript, role-based administration, document generation, reporting

EDUCATION

Diploma in Computer Engineering | Thakurgaon Polytechnic Institute | 2021 | CGPA 3.61/4.00

Secondary School Certificate (Science) | Nouton Bandar Bangheri High School | 2017 | GPA 4.23/5.00

LANGUAGES

Bangla: Native | English: Professional working proficiency
